

"The Spirit of the Range... The Freedom of a People"

**TORRINGTON'S 7/15/16 WEIGH-UP MARKET A WRECK
 USDA CALLS IT \$10 LOWER
 GORDON'S MARKET \$5 LOWER COMPARED TO PHILIP**

I purchased a semi load of bulls at Philip costing an average of 98.30 for the killers and 95.82 for the feeders.

Rudy "Butch" Stanko

The top bull at Gordon was 99.50 while several of my killing bulls cost \$103 to \$102. The average cost of the bulls at Gordon was 92.66. The average cost of my cows was 77.21, when the top cow at Gordon only brought \$77. Several cows at Philip brought over \$80.

The Gordon market was decent compared to Torrington on Friday, when the USDA called the bulls \$10 lower at between \$83.50 to \$93.50.

The market at St. Onge, SD was comparably steady with the Roseth barns at Philip and Belle Fourche, SD. My load of bulls at St. Onge cost 96.73 with the top bull costing \$101. My average cost of the cows at St. Onge was 77.38. It's a good thing Crawford had no sale. I predict it would have followed Torrington's wreck.

When comparing the yearling market reports of Gordon with Belle Fourche and St. Onge, South Dakota, it sure looks like the same situation. The nine weight steers brought between \$143.50 to 146.50 in the hills, where they topped out at \$137.50 at Gordon.

The bottom line is this: It pays you cowboys to migrate your cattle north with the Buffalo, where there is still a little competition at the sale barns.

The veterans and their Zionist government can patrol the cattle market on highway twenty.

If my theory of relativity is proven successful, Germany will claim me as a German and France will declare that I am a citizen of the world. Should my theory prove untrue, France will say that I am a German, and Germany will declare that I am a Jew.

Looks Like Donald Trump is Jewish

Trump's genealogy is a total mirage. First, go to his mother at Geni.com. She is Mary Anne MacLeod. So they want you to think she is Scots. Then, click on her father, Malcolm MacLeod. Then click on his mother, Anne MacLeod. She is the wife of Alexander MacLeod, so that is her married name. What is her maiden name? Whoops, it is also MacLeod, because her father is also named Alexander MacLeod. So both her father and her husband have the same first and last names? Did she marry her own father? Also, her birthyear is given as 1833. Note the 33. [Geni also fails to mention what we have to learn from the DailyMail: the name Trump was originally Drumpf.]

That can't be right, can it? so let's check the other genealogies. The second listed on a Google search is at About.com. But it has nothing to say about this. It stops just short of the Anne MacLeod problem. But it does tell us something interesting: both Trump's parents died at Long Island Jewish Medical Center.

That date of 1833 seems suspicious for a second reason: it is too early. A person in their early 50's has grandparents that were born somewhere between 1900 and 1910.. with great-grandparents being born around the 1880's. Anne MacLeod is supposed to be Trump's great-grandmother. Trump is listed as 70 years old. So, that would take us back to about 1863 at most, not 1833 as to when his great-grandmother was born. So, we have a 30 year gap there between his 4th generation and most everyone else's. That's certainly possible, spread across three couplings, but it is upside down the trend. People tended to get married and have kids earlier back then, not later.

So let's return to Friedrich Drumpf, Donald's great-grandfather. Two of his sisters are listed as Elisabetha Freund and Syblia Schuster. Oi-vay! Those are both Jewish surnames. Let me remind you that Max Schuster, founder of Simon & Schuster, is now admitted to be Jewish. The Schuster in the Socialism project was also shown to be almost certainly Jewish.

As for Freund, see Michael Freund, Moshe Aryeh Freund, Wilhelm Freund, Yoav Freund, Leopold Freund, and too many others to mention. So at least two of Trump's great-aunts married Jewish men. This reminds us that his daughter Ivanka married a Jewish man, Jared Kushner. We are told this is an anomaly, but it isn't. What is an anomaly is that Kushner admits he is Jewish.

Friedrich Drumpf's mother is named Katarina Kober. Not only is that possibly Jewish, but it leads to another suspicious scubbing of the genealogy. Her father is given as Johann, but he has no parents. He is the only one in that generation whose parents are unknown. Even his wife's parents are known. I suggest the name isn't Kober, but Kolber. We have seen the genealogies being white-washed this way again and again. Changing one letter is often the best way to do it. It is the most subtle, so it draws the least attention. Kolber is typically a Jewish name.

With more study, we find that Trump's aunt Elizabeth married William O. Walter. That name is also possibly Jewish. We find a William Walter as Director of Jewish Family Services in York, PA. Also a William Walter just buried at Jewish Memorial Chapel of Long Island. Also a William O. Walter marrying a Cora Neuhauser in Lebanon, PA, in 1924. That name is also probably Jewish. And most curiously, a William Walter, Esq. listed in the Jewish Missionary Intelligence of Jun, 1896. More research discovers his firm were the honorary stockbrokers of this London Jewish society in 1900. That is interesting because it directly ties to a paper written on Friedrich Engels and Robert Owen. Owen's brother-in-law was James Haldane Stewart, who worked for the Jews' Society in the 1830's and 40's, a precursor of this Jewish Missionary Intelligence. At any rate, this may be our William Walter or his father, given the date. His father is scrubbed at Geni. The names Walter and Walters were chosen by Jews entering the US, as a new name, as we see from Barbara Walters. Her father Louis Walters was originally Louis

Abrahams.

Like so many other prominent Jews now, Donald Trump was born in 1946. That is one of the primary marker dates, along with 1933 and 1947. Bill Clinton was born in 1946. Hillary in 1947. Who else was born in 1946? David Lynch, Gene Siskel, Linda Ronstadt, Steven Spielberg and Cher, just to name a few of the more than 50 Jewish celebrities and well known figures.

How many red flags can you count there? Several Jews have been outed by one source or another, some simply out themselves. We might think Intelligence had some sort of incubation laboratory in 1946-47, where many of these people were raised from the egg to play the parts they later played. One way or another, I believe they did, though I can't tell you a specific scenario. Occam's Razor tells me it probably wasn't the more sci-fi scenarios we are sold by some conspiracy theorists, although I don't rule any of those out. My gut tells me they are just products of a planned community, not much more esoteric than the way the Russians used to produce ballerinas. In other words, there are definite signs of a program, but I lean to the low-tech alternatives, until I see strong indications otherwise. According to my research so far, these people and most other famous people were culled from the richest families - a majority of them Jewish - and then trained mainly as actors. If they had some talent, great, but as the century wore on that became pretty much superfluous. They only had to pretend to be musicians or artists or scientists or whatever. Intel found that almost no one could tell the difference. The bios of most of these people are completely manufactured, and they are nothing but actors. They haven't done most of what you are told they have and if they have money they did get it by earning it.

But back to Trump. In his biography, *The Art of the Deal*, Trump lied about his grandfather's country of origin, stating it was Sweden instead of Germany.

Looks Like Donald Trump is Jewish

(continued from page 3)

So if you think these people wouldn't lie about their ancestry, you need to explain that whopper.

Trump was brought up in Jamaica Estates, Queens, which has a large Jewish population. He went to Kew-Forest School, ditto. Its other notable alumni include Katherine Weber, Jewish, Gideon Yago, Jewish and Hank Azaria, Jewish. Googling on "attended Kew-Forest" brings up mostly Jewish names. Trump's father was on the Board of Trustees at Kew-Forest. By the way, it is very expensive.

Trump allegedly went to the Wharton School of Business, a famous academy. But we have a problem there, too. Trump is said to have graduated on time in 1968, at age 21 (almost 22). However, since he transferred in year 3 from Fordham University, it is unlikely he would be able to fulfill the degree requirements at Wharton in two years. This problem is doubled when we are told Trump worked at E. Trump and Son while at Wharton. It is tripled when we remember Wharton is in Philadelphia and E. Trump and Son is in New York. He avoided the draft allegedly for heel spurs or a "lucky high number".

Ivana is also Jewish. An early boyfriend was George Syrovatka. That is a Jewish name. Her first husband was Alfred Winklemeier. Many websites try to pass him off as an Austrian skier, but Wiki admits he was a real estate agent. Winklemeier is a Jewish name. Ivana lied about being an alternate for the Czech Olympic ski team. She went to McGill University in Montreal, an academy name we have run across many times. Geni.com lists her father's name as both Knavs and Zelnicek. I'll give you a hint: drop the second "e". You get Zelnick. It is Yiddish for haberdasher. Clotheir. It's Jewish, too. See Robert Zelnick, Strauss Zelnick, Bob Zelnick, etc. Robert was a fellow at the Hoover Institution, Stanford. Strauss was President of 20th Century Fox. Bob was ABC News producer. Also, Friedrich Zelnik, silent film producer.

David O. Selznick, whose name was originally Zeleznick, or, alternately, Zelnick was a major Hollywood producer, along with his father, David at RKO (which was owned by Joseph Kennedy, remember.)

Both Trump and his father ran with top Jews in New York, including Samuel Lindenbaum and his father Abraham (Bunny), and Roy Cohn. These guys weren't just their attorneys, they were their enablers. As the NYT says in the 2012 obituary of Samuel Lindenbaum:

"Mr. Lindenbaum cultivated a scholar's knowledge of the Zoning Resolution, the arcane document that governs development in New York. As a result, he was able to bend the resolution to his clients' will without breaking it. And because he clients were major builders and landowners - among them Harry B. Helmsley, Harry Macklowe, Larry A. Silverstein, Jerry I. Speyer, Leonard Litwin, Steven Roth and Donald J. Trump; the Fishers and Tisches and Rudins and Roses..."

Notice anything about that list? Everyone on it "except" Trump is admitted to be Jewish. Curious, no?

This means, when we had three remaining Presidential candidates, they were all Jewish, but only two of them are cryptos. The only question remaining is this: Are all three gay? And to answer your question, no, that was not a joke. Some would say, "I don't care if Trump is Jewish or gay. I plan to vote for Bernie, so I don't care." But these people are missing the point. Being gay or a Jew isn't the point. What I don't like is the lying and the faking. I don't like these asinine projects being run against me all the time. I don't like my intelligence insulted day by day. I don't like this manufactured world, sold as real. And you shouldn't either. Bernie isn't as ridiculous as Trump, but he is just as fake. He is an actor on the stage they have prepared. The entire election is a big stage play, as fake as a Shakespeare production, but not as well written or acted.

The office of the President is now fake, played by a bad actor or the idiot son of some billionaire. He does nothing but read from Teleprompters, scripted by guys behind the curtains. Trump is sold to you as some sort of financial genius, but like George Bush before him (the great decider), he couldn't decide what to order for lunch without a cue from a Teleprompter or one of his other gadgets. If you can't see through all these people, you really need to check your prescriptions and dosages.

“[The Average man] is not actually happy when free; he is uncomfortable, a bit alarmed, and intolerably lonely. Liberty is not a thing for the great masses of men.

It is the exclusive possession of a small and disreputable minority, like knowledge, courage and honor. It takes a special sort of man to understand and enjoy liberty - and he is usually an outlaw in democratic societies.”
