## I TOLD YOU SO!!

I have been reading some of the past articles in The Stampede. The articles I wrote predicted last year, when the fat cattle market started its down turn from the \$2.65 a pound dressed beef carcass market, the cattle industry would be in big trouble. Here are the reminders.

"Let's not kid our-selves. The Jewish meat monopoly have closed their plants left and right, and with the help of the Jewish USDA, they have closed the last remaining meat plants of the goyium. There is no killing plant in Western Nebraska (Scottsbluff, North Platte, Norfolk). There is no longer a plant in Western South Dakota, when Rapid City had one of the largest full line meat packing plant. There are only two Jewish plants in the Eastern bottom of South Dakota. There are no plants in Montana, North Dakota, or Wyoming, when there were several in the 1960's. There is no plant in Eastern Idaho, and only one JBS plant in Utah. JBS, by the way, owns the major plants in Omaha, Greely, and Grand Island. The bottom line is the meat packing pipeline is for a selected few, and the meat packing pipeline will have a minimum market for the granger's cattle. The pipeline will only open when they then can steal the live-stock." This is what is happening right now.

"JBS is owned by Sephardic Jews from Brazil. Whether they are Sephardic or Ashkenazis, they have a Jewish DNA with the instinct to monetarily control us goyim. I have heard that these Brazilian Jews claim they are Christians. They are correctly called marranos. A marrano is a Jew that has sprinkled a little holy water on his forehead, thus calling him a baptized Christian, but clandestinely practicing Judaism."

"The only thing R-Calf wants to do is pass more laws with legislation for Country of Origin Labeling (COOL). This legislation is just another regulatory hurdle that makes it an impossible entry of a small meat packer into this industry. R-Calf is just another politician that wants to be politically correct, and a front for the Jewish meat cartel by wanting more regulatory laws on the books.

On the other hand the only thing our Beef Check-off representatives want to do is dress-up in shirt and ties and eat prime rib dinners on our Beef Check-Off Tax dollars. Both outfits refuse to state: lack of competition is our problem, let's correct it. Sarcastically observe how the Beef Check-off has helped the present cattle market. This outfit, also, wants to be politically correct.

## CATTLE MARKET - DRY COW SEASON COWS AND BULLS DOLLARS HIGHER IN THE HILLS

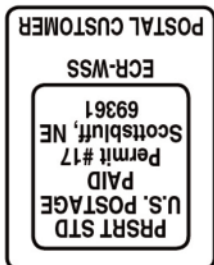

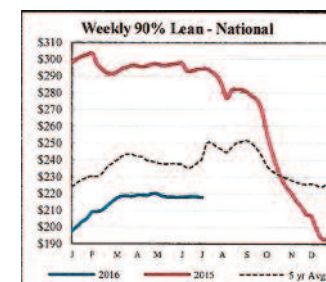

I can remember in the eighties when loads of dry cows were liquidated in July. This has all changed, since preg testing became a trade of the veterinarian profession.

Cows are now preg tested after the calf run. Preg testing takes place mostly after the first of the year, and this is when the cow price has stayed steady most of the year, i.e., around \$75 cwt.

It looks like the cow and bull run was shorter this week with the dry cows bringing around \$80 cwt., and top heavy cows hitting \$81.50. I bought a load of bulls at each sale in the hills that average right at \$95 cwt. Several top bulls brought \$102 to \$103. Looking at Gordon's market report, it took a good bull to bring \$98 and the top cows only brought \$75 cwt.

With limited competition at the sales barns, this cow market will probably hit \$50 cwt. from Thanksgiving to Christmas. It did last year, so I see no reason for it to be any better, especially given the strangle hold the two Jew cow killers have on the market.

## The Yuri Factor

Awake people often wonder why they cannot get through to others about the threat of Jewish Supremacism when the evidence is abundant and hidden in plain sight. Yuri Bezmenov sheds light on the cognitive dissonance that frustrates truth tellers.

In 1984 G. Edward Griffin interviewed Yuri Alexandrovic Bezmenov. Born in 1939 in suburban Moscow, the son of a high ranking Soviet Army officer, he was educated in elite schools inside the Soviet Union. Bezmenov developed an expertise in Indian culture and languages. He went on to a career as a "journalist" for Novosti, which was and still is the press agency of Russia. It's also a front for the KGB. After becoming totally disgusted with the Soviet system and at great risk to his life, Bezmenov defected to the West in 1970. He escaped disguised as one of the many hippies that had flocked to India for enlightenment. Ardently Pro-American, he began writing and lecturing on the subject of propaganda, disinformation, and ideological subversion.

Bezmenov explained that psychological warfare has little to do with James Bond style spies. Hollywood's fascination with espionage films is romanticized to sell more advertising. "But in reality the main emphasis of the KGB is not in the area of intelligence at all." He estimated only 15 percent of time, money and manpower is spent on Bond-type espionage, the other 85 percent is the slow process of ideological subversion or psychological warfare. The goal is to change the perception of reality of every American that "despite the abundance of information no one is able to come to sensible conclusion in the interest of defending themselves, their families, their community, and their country." This tremendous brainwashing process goes very slowly and is divided into four basic stages. America is clearly in the last stages.

### Stage One- Demoralization

It takes 15 to 20 years to demoralize a nation [i.e. corrupt morally]. This is the minimum number of years required to educate one generation of students by exposing them to enemy ideology. "In other words, Marxism-Leninism ideology is being pumped into the soft heads of at least 3 generation of American students without being challenged or counterbalanced by the basic values of Americanism; American patriotism." The KGB's activity was directed towards compiling huge amounts of information on individuals instrumental in creating public opinion. They included publishers, editors, journalists, actors, educators, political science professors, politicians and leaders in business.

These individuals are divided into roughly two groups- those who would tow the Soviet foreign policy and those who would refuse. Those that go along are promoted to positions of power through media and public manipulation. Character or physical assassination awaits those that refuse. Even the pro-Marxist, when he has outlived his usefulness, is targeted for death or imprisonment. Bezmenov gives a handy tour of the Marxist foreign policy hit list- Nicaragua, Grenada, Afghanistan, Bangladesh, Cuba and Vietnam. "Idealistic, leftist communists are the useful idiots; the leftists who are idealistically believing in the beauty of Soviet or Communist or Socialist or whatever system; when they get disillusioned, they become the worst enemies." His KGB instructors specifically made the point, "never bother with leftists, forget about these political prostitutes - aim higher". Large circulation, established conservative media, rich movie makers, intellectuals in academic circles are the goal. Cynical, ego-centric people, suffering from self-importance, who lack morals, are the most desirable recruits. In other words, the sociopath.

The first stage of psychological warfare has long been complete. Bezmenov pointed out that "America is stuck, even if you start right now this minute; you start educating [the] new generation of Americans - it will still take you 15 to 20 years to turn the tide of ideological perception of reality, back to normalcy and patriotism.

"The result? The result you can see -- most of the people who graduated in the 60's, dropouts or half-baked intellectuals, are now occupying the positions of power in the government, civil service, business, mass media, and educational systems. You are stuck with them. You can't get rid of to them. They are contaminated. They are programmed to think and react to certain stimuli in a certain pattern. You cannot change their mind even if you expose them to authentic information. Even if you prove that white is white and black is black, you still cannot change the basic perception and the logic of behavior. In other words [for] these people the process of demoralization is complete and irreversible. To rid society of these people you need another 15 or 20 years to educate a new generation of patriotically minded and common sense people who would be acting in favor and in the interests of United States society."

The good news, if there is any, is the psychological shock when the idealists see "what the beautiful society of equality and social justice means in practice, obviously they will revolt. They will be very unhappy, frustrated people, and Marxist Leninist regime does not tolerate these people. Obviously they will join the [ranks] of dissenters; dissidents. Unlike the present [1984] United States there will be no place for dissent in future Marxist-Leninist America.

"The demoralization process in the United States is basically completed already for the last 25 years [50 years].

## The Yuri Factor

(continued from page 5)

Actually, it's over fulfilled because demoralization now reaches such areas where not even Comrade Andropov and all his experts would even dream of such tremendous success. Most of it is done by Americans to Americans thanks to lack of moral standards. As I mentioned before, exposure to true information does not matter anymore. A person who was demoralized is unable to assess true information. The facts tell nothing to him, even if I shower him with information, with authentic proof, with documents and pictures. Even if I take him by force to the Soviet Union and show him the concentration camps...he will refuse to believe it.... until he is going to receive a kick in his fat bottom. When the military boot crashes - then he will understand, but not before that. That's the tragedy of the situation of demoralization."

### Stage Two- Destabilization

"At this stage, [the] subverter does not care about your ideas and the patterns of your consumption. Whether you eat junk food and get fat and flabby doesn't matter anymore. "It only takes 2 to 5 years to destabilize a nation. This time what matters is essentials; economy, foreign relations, [and] defense systems. And you can see it quite clearly that in some... sensitive areas such as defense and [the] economy, the influence of Marxist-Leninist ideas in the United States is absolutely fantastic. I could never believe it 14 years ago when I landed in this part of the world that the process will go that fast."

### Stage Three- Crisis

This is where we are today. "It takes only up to 6 weeks to bring a country to the verge of crisis. You can see it in Central America now [1984]; and after crisis, with the violent change of power structure and economy."

### Stage Four- Normalization

"After the crisis, following the violent change of regime, structure and economy, comes what is called the phase of normalization, which can last indefinitely. Normalization is an expression of great cynicism, after the Soviet propaganda. When the tanks invaded Czechoslovakia in 1968, Brezhnev said: Now the situation is normalized in Czechoslovakia." Normalization includes promises of "all kinds of goodies, and paradise on Earth. To destabilize your economy, to eliminate the principle of free market competition; and to put a big brother government in Washington D.C.; with benevolent dictators like [1984] Walter Mondale [2008 Obama] who will promise lots of things.

Never mind whether the promises are fulfilled or not. He will go to Moscow to kiss the bottoms of a new generation of Soviet Assassins. He will create false illusions that the situation is under control. Situation is NOT under control. Situation is disgustingly out of control. Most of the American politicians, media, and educational system train another generation of people who think they are living at the peacetime. False. United States is in a state of war; undeclared, total war against the basic principles and foundations of this system. And the initiator of this war is not Comrade Andropov of course - it's the system. However, ridiculous it may sound, [it is] the world Communist system, or the world Communist conspiracy. ...Unlike me, you have literally several years to live on unless United States wake up. The time bomb is ticking. With every second the disaster is coming closer. Unlike me, you will have nowhere to defect to, unless you want to live in Antarctica with penguins. This is it; this is the last country with freedom and possibility."

In 1984, Bezmenov felt America needed a large national effort to educate people in the patriotic sense of values with an explanation of the real danger of a socialist, communist, Big Brother state welfare system. His words were indeed prophetic. "If people fail to grasp the imminence of this danger and this development, nothing will help the United States. You can say goodbye to your freedoms. All your freedoms disappear; they will be charred in a few seconds- and with your precious lives." His last admonition was to force the government- "and I do not mean send letters, petitions, or other noble and beautiful work of this kind- I'm talking about forcing the government to stop aiding communism."
