JEWISH RACE PLANS TO EXTERMINATE BLUE EYES WITH THE DOWN-BREEDING OF MUD RACES

Madison Grant (1865-1937) was one of America's most influential racial thinkers. His book, *Conquest of a Continent*, outlines the racial makeup of the Germanic tribes who originally settled and tamed America by conquest. Grant was an unapologetic Nordic, (A Whiteman with blue eyes). Grant reminds the readers that North American Whites defeated both the Mongolian Indian on the Western prairies and the Mexicans in the Mexican War of 1848.

By using documented historical facts, he proved that the colonial stock who opened up America for settlement were of

Northwestern European or Germanic blue eyed stock. He goes on to show how America reached its greatest degree of racial homogeneity during the takeover of California from the Mexicans during the 1849 gold rush and before the civil war in 1860. This book had an influence on the US Congress in 1933, when it halted all further non-Northwestern European immigration.

Grant explains that the Indian is of Mongolian ancestry and of the same bloodlines as the Mexicans. Grant accurately predicted in 1933 what would happen if unlimited immigration was allowed once again. He explained how the existing racial problems left by the

migration of Negro to the urban slums, illegal Mexican immigration, and the attempt to assimilate the uncivilized Indian, would lead to the degeneracy of the American republic in the 21st century.

When I was in the meat business, I had over 200 meat customers. Of the two hundred only two were of non-European stock- one Negro and one Indian. Both the Negro and Indian were on COD (Collect the Money On Delivery). The only time this Negro or Indian had money was when the Jew government, aka the Federal Reserve, gave them another federal loan. This proves the Negro and Mongolian races are not capable of competing

with the business world or life generally. Both sides of my family immigrated from Europe sixty years after the civil war. They had the cultural ability to never live in a slum, and like European Donald Trump, I, also, had the ability to become a self-made millionaire.

It is obvious by the drift of America being populated with the mud races, the Jewish race is winning the racial war, and is exterminating the blue eyed people by way of assimilation. The Northern European has been the only threat to the Jewish empire in the last three thousand years. Read Dr. Kevin Macdonald's book, "The Culture of Critique."

ABERDEEN RAISES COW MARKET \$5 TO \$7

The Aberdeen plant had 5 hundred weigh-ups. As the representatives at the Belle, Philip, and St. Onge cattle auctions. If they wanted action, the American Foods buyer was sure to "make-em-pay." The new action payed an extra \$5 to \$7 to the seller of weigh-up cows. Ron Walker, who has been absent for several weeks at Philip, blew into Philip and took away average fleshy xxx boning utility cows with a Philip weigh-up from American Foods at over \$65. Philip had 4

to 5 hundred weigh-ups. As the saying goes - Philip is the place to sell weigh-ups. Philip weigh-up is a cow fuller than a tick. A Rushville weigh-up is a cow gaunter than a rail.

The action was about the same at Belle and St. Onge when Bob Mackey, who has been absent all fall on the weigh-up market, had a cow order from the Aberdeen area. He drilled American Foods load after load at up to \$66, and

bingo, American Foods would drop a handful on Mackey. All of these cows had to cost at least \$145 in the meat at the western boarder of South Dakota.

The Stampede's buyer and American Foods fought over the bulls. The bulls brought between \$82 to \$87 all week. The American Foods buyer did buy a load of 1,000 lb. bulls for a buck even. JBS buyer has been weaker each week for the past month. This week he was

completely off the market. I speculate the two Jew corporate offices' conspired to save expenses knowing Aberdeen was going to be on the scene.

Going Against Nature Is A Dead End Street — And We're On It!

By: John Kaminski

The thing that got me going on this was Ray Kurzweil's singularity fantasy in which he aims to download your consciousness into an artificial body inside which you can live forever, supposedly. Now the chief science officer at Google, Kurzweil is saying this process could be available by 2029. <<http://www.businessinsider.com/googles-chief-futurist-thinks-we-could-start-living-forever-by-2029-2016-4>>

I think the day we invent immortality for our ourselves is the day we stop having babies, which up until now has been the main purpose of life. What that purpose will become beyond the horizon of Kurzweil's singularity, if it ever comes, could well be a fate worse than death, with new sophisticated methods of life extension/termination forever sabotaging the natural human impulse to seek peace and contentment through authentic dialogue and understanding.

The slavemasters seek to completely eliminate independent people who rely on their friends. They want everyone disconnected and turning to the government for all their needs. No more co-conspirators plotting against the superstate. This is the ultimate war on freedom. Everything you have learned in this life has been to train you to fit into your strait jacket and shut up.

Reversal Of Values

Things that are against nature are the hallmarks of our culture today. These are horrifying developments that we have come to accept as normal.

The proposed legalization of pedophilia would rank right at the top, following Pizzagate revelations that mainstream media have been doing cartwheels to cover up. Legalization of pedophilia would be the final nail in the coffin of the American family, which had previously been nailed shut by women's liberation and the popularization of homosexuality.

Genetically modified seeds and their interlocking poison pesticides produced by a notorious weapons manufacturer cause massive suicides in India among farmers who can't pay for the GMO seeds that grow only once. Our government insists they shouldn't be tested or labeled.

Prozac in the water dumbs everybody down, producing emotionless robots prone to suicide and incapable of authentic relationships.

Navy sonar kills cetaceans who beach themselves while screaming as the ocean food chain washes up on beaches and the starfish disintegrate before our eyes.

800,000 kids go missing each year, some of whom become sex slaves for our leaders.

The defoliation of vegetation by aluminum from the skies is supposedly done to protect us from the Sun, which has now suddenly cooled. A devotee of Rudolf Steiner might think the Sun turned off its burner because it could see the Earth has become dangerously overheated.

All the while the chemtrails poison the skies, facilitating co-factor

diseases that cull the population.

And then there's television. This is the world you permit. Is this the world you want?

Unnatural Events

How many times have you heard the remark lately that everything seems upside down, that what used to be right is now wrong, and what used to be wrong is now generally accepted as OK in a society that has been cleverly subverted into something resembling the Weimar Republic in which little girls sold themselves to rich bankers in order to stay alive (is it so different today?).

How odd it should be that the people we attempt to respect — namely our elected officials — are misanthropes drunk on power who wallow in the depths of perversion and call it a lifestyle choice.

The results of these trends are that our children are being raised by the state, raised to be thoughtless killers, actually.

The first obvious thing that strikes me as being profoundly against nature because it is practiced in similar forms across much of the world is the barbaric, consciousness warping process of circumcision.

Jews say this is a sign of their holiness. I say it's a clear indication of their depravity, as there is no legitimate health reason to ever have this done to you, especially when you are a defenseless baby.

Insane Jews have spread this atavistic atrocity and medical scam throughout the entire world.

The circumcision ritual is basically what the Jews do to the whole world. They steal everyone's most valuable part and make life miserable for the people who must suffer their bizarre and sadistic behavior.

Crimes Before Our Eyes

Our government — the U.S. government — continues to commit inexplicably barbaric acts against poor people all over the world. Just as bad if not worse, it imports illiterates from darkest Africa to further degrade its own educational processes and social systems which have been practically destroyed by immigrants who can't speak English and don't know how to use toilets.

And then it rules that no identification is required in order to vote!

The murders of Muammar Qaddafi and Saddam Hussein and the continuing torture deaths of their countries rank high on the list of America's recent criminal achievements. These presidentially decreed murders were about robbery cloaked in rubbish about terrorism, false stories concocted to steal oil.

We've deliberately murdered a lot of our own people so they wouldn't blow the whistle on the crimes and deceptions our own country is committing.

Israel and the U.S. promote turning countries who won't pay

Going Against Nature...

Continued From Page 2

ransom to the international bankers into radioactive landfills full of the corpses of their children.

Too many morons still believe that planes slamming into buildings like a hot knife cutting into butter are perfectly realistic.

Americans bomb hapless villagers to get them to accept a dictator they don't want, but the banks do.

The term "crisis actor" has emerged because of the clumsiness of all these false flag terror events they claim to be authentic. These manufactured tragedies — few of them actually real — remain hotly debated between people who trust their government no matter how it behaves and those who can actually tell the difference between a lie and the truth.

Donald Trump will never be able to tell the truth about 9/11 because he simply has too many old friends who were involved in the caper. Will we ever realize that our government smashes the essential requirements for optimal health beneath the smug deceptions of cold-hearted business executives?

A Swindler's Culture

In their fear that first began with their rejection by ordinary societies and then metastasized into a monstrous paranoia generated by their own obnoxious habits — no, not just obnoxious, but willfully perverse, self-injurious and criminal — the Jews separated themselves from the rest of humanity and vowed eternal vengeance on the rest of us for putting them in a position of having to do this.

This single-minded compulsion allowed them to learn every trick in the book about how to swindle people, a trait which ultimately results in having no one trusting you — ever, because you have lied to them to many times to possibly even count. How many times does it have to be before you no longer believe what they say?

In a world run by Jewish media, apparently the number is infinite.

This is the position the U.S. government is in today, with the unearthed facts of previously suppressed history clearly showing an outside agency in control of the USA ever since the passage of the Federal Reserve Act in 1913. All our leaders since that time — as well as all of the major media commentators throughout that period — have been employed or approved by this all-powerful outside agency.

American history is all about Jews trying to destroy America. With assassinations, swindles and bribes, the Manchurian candidates dominate both parties today.

If people have nothing outside of themselves that they respect and revere then they have no scruples and cannot be trusted.

But if people are controlled by an outside agency and don't know it, nothing in the world can free them from their imprisonment, except the knowledge of who their tormentors actually are.

Kurzweil's attempt to substitute a human creation for a natural organism exactly mirrors the hubris that generates the flaw that is destroying our natural world.

The futile hunt for the holy grail is the human self deception to avoid death. Or as Ernest Becker said, "Man is a frightened animal who must lie in order to live."

We need new religions to teach us that immortality is achieved through reproduction. DNA never dies, though your ego will. It is a beautiful system that guarantees selfishness will lose in the end.

If you do not have the faith to carry on then you will not carry on.

Does everyone who preaches for peace have an ulterior motive?

Do churches sustain themselves by recruitment when their financial requirements become more important than the integrity of their message? Otherwise the message will not survive. But what kind of message is it which does survive?

It is one that tolerates tyranny, helps cover up the truth, and is complicit in ghastly crimes. As it shifts child molester priests from church to church, it is the stuff of nightmares.

The Consequences Of Lies

As I've been saying for a decade or more, the two great obstacles to constructing a united front against the homicidal maniac Jews are ego and religion.

Both Christianity and Islam actually support the legitimacy of Judaism. They're all in the same business of stealing souls for fun and profit.

And the tendency of religious zealots to fracture relationships and efforts devoted to exposing the Jewish menace because of their misguided devotion to thoroughly suspect dogma allows Jew interlopers to foment discord by simply pulling the chains of the true believers, who take the bait, betray their real allies and accomplish nothing except the continuation of their loopy and inauthentic rituals.

That's why religion has no place in the fight against the Jews. It's all about the crimes Jews commit, and it's very difficult to catch them because they own the cops, the judges, the media and the politicians. Yes, they own the churches, too.

It makes our task very difficult, but now is not the time to give up. Human decency requires that we never give up trying to prevent Jews from establishing the brutal, conscience-free world they are trying so hard to create.

We live on a dead end street if we think humans can improve upon Mother Nature's graceful gifts. And we won't live much longer if we continue to do so.

The First Freedom

A racist monthly tabloid

Covers the South like white on grits – emphasis White

To get the next twelve 24-page issues of its articulately unflinching truth by mail anywhere in C.S.A. or U.S. send \$25 in Federal Reserve play money or one silver dollar to TFF, PO Box 385, Silverhill, Alabama 36576

This book's success laid the groundwork for the emerging science of eugenics, and was widely read by US presidents, scientists and became a popular best-seller in its day. It was a call to American whites to counter the dangers both from non-white and non-North Western European immigration. Unashamedly Nordacist in outlook, Grant used history and anthropology to argue against an open-door immigration policy, which, he said,

would lead to the destruction of the founding American population. "We Americans must realize that the altruistic ideals which have controlled our social development during the past century . . . are sweeping the nation toward a racial abyss. If the Melting Pot is allowed to boil without control, the type of native American of Colonial descent will become as extinct as the Athenian of the age of Pericles, and the Viking of the days of Rollo." This hand-edited reproduction contains the complete original text, tables and maps.

A sweeping study of racial anthropology and history which starts with an explanation of the term "race." It then studies Nordic European racial history from the earliest times to the present day, concluding that Third World immigration would destroy Europe and America. This book established Madison Grant as an authority in racial thought. Its success laid the groundwork for the emerging science of eugenics, and was widely read by US presidents, scientists alike. "If the Melting Pot is allowed to boil without control, the type of native American of Colonial descent will become as extinct as the Athenian of the age of Pericles, and the Viking of the days of Rollo." This special Centenary Edition contains the complete original text, tables and maps, the author's extra map explanations which he added to the 1936 fourth edition. In addition, it also contains the author's introductions to the first and fourth editions, and the accompanying introductions by Professor Henry Fairfield Osborn.

By using documented historical fact, Madison Grant proved that the colonial stock who opened up America for settlement were primarily of Northwestern European stock, with particular emphasis on its English and Ulster Scots roots. He goes on to show how America reached its greatest degree of racial homogeneity in 1860 and that later immigration from all parts of the world was undermining this founding stock. Contains all the original maps and two new appendices which details how the Anti-Defamation League sought to suppress this book; and a 2006 study which showed that the number of Americans born with blue eyes had dropped from 1 in 2 in 1900 to less than 1 in 6 in 2000—proof of the accuracy of Grant's predictions that unlimited immigration would lead to the de-Nordicization of America.
